

Space Survey Training 2024: Research

Who are we & What do we do?

❑ *Space Planning & Management*

Andrew Bolling – Director

Alaina Replogle – Application Support Manager

Erin McKinnis – Sr. Data Analyst

❑ **Vision**

Space Planning & Management will contribute to the educational, research, and public service goals of the University by providing comprehensive strategic planning and administration of space assignments and policies.

❑ **Mission**

Space Planning & Management is responsible for managing one of the University's most limited resources – space. The management of space includes planning, tracking, assignment, auditing, analyses, and reporting of current and future needs based on the strategic and research goals of the institution while maintaining proper alignment with the Master Plan. Space Planning & Management is the central governing office of all space on campus.

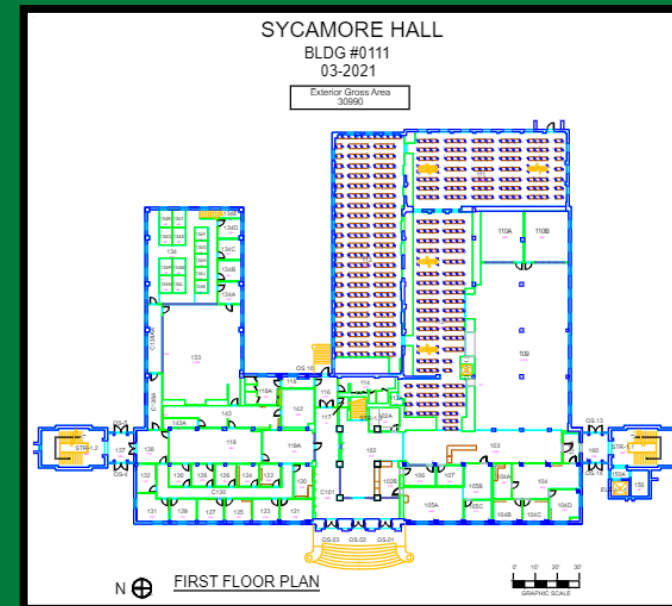

WHAT is the space survey?

The Space Inventory Survey is a module of the FMS:Workplace Space Management System that is accessible through a web interface. It is based on CAD floor plans which track space on the Denton, Dallas, HSC & Frisco campuses.

Denton Campus

- 180 buildings
- 23,268 rooms
- About 8M square feet

WHY must we do the survey?

- Impacts UNT's Legislative State appropriations.
- Determines amount of HEF received (Higher Education Funds).
- Qualifies UNT for TRBs (Tuition Revenue Bonds) for new buildings.
- F&A (Facilities and Administrative) Federal funding for research space.
- Required by State & Federal Government.
- Required by UNT Policy.
 - Policy 11.002 – Space Management & Assignment Policy
 - Policy 11.011 – Research Space Policy

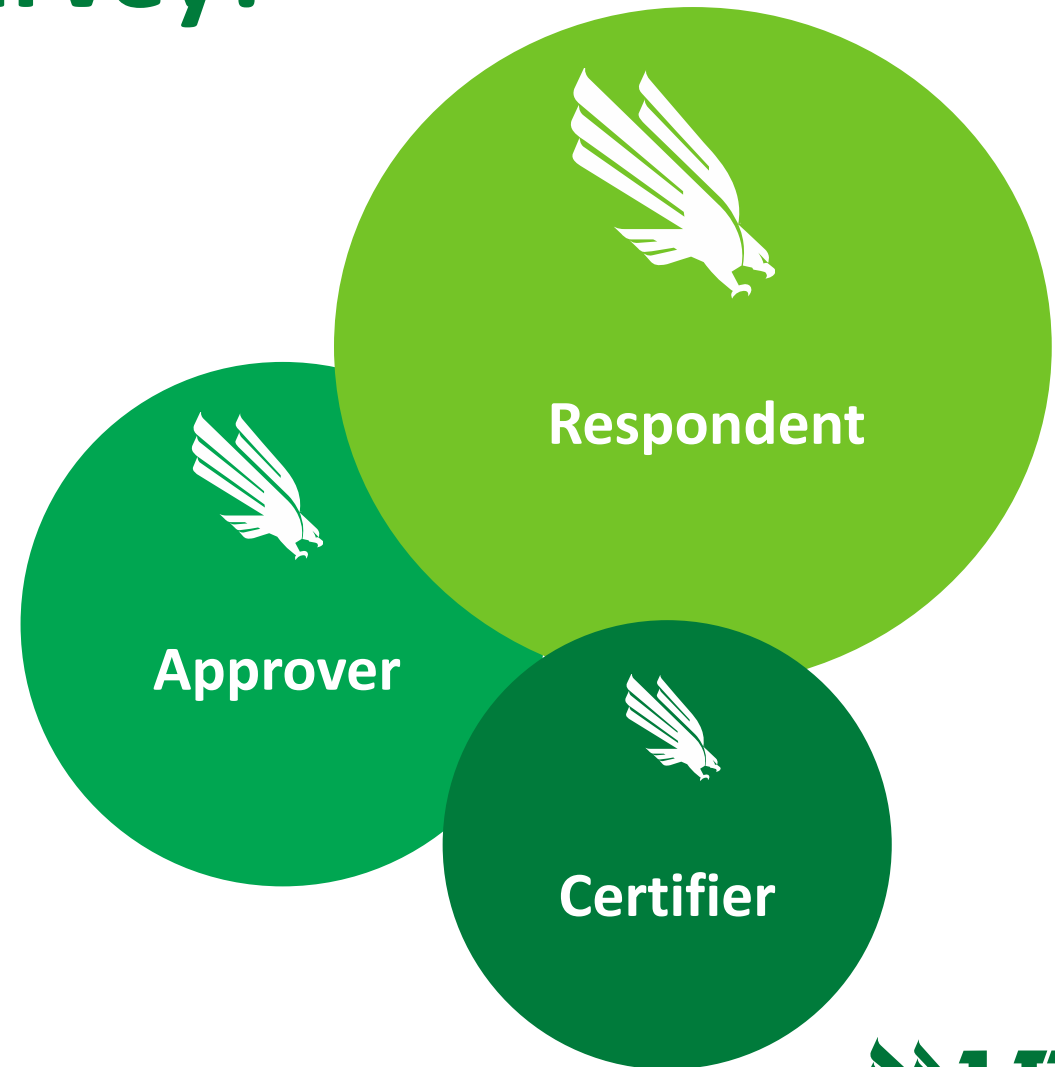

“All units on campus are responsible for accurately reporting assigned rooms according to State and federal codes, regulations, and laws on an annual basis and is administered by OSMP” – Policy, 11.002

WHO must do the survey?

ALL academic **AND** non-academic departments/units on campus, including auxiliary and athletics

- Respondent
(e.g., space representative)
- Approver
(e.g., department chair, dean, director, VP)
- Certifier
(SPM and UNT President)

WHEN is the survey due?

Survey will open **Friday, March 1st**

Survey is due **Sunday, March 31st**

- Delinquent surveys are reported to the VP of the division as well as the President

Resist procrastination & allow plenty of time!

- Collect Data
- Enter Data room-by-room
- Approval Process

VPN

- You **MUST** be connected to VPN to access the survey

WHERE can the information be found?

- Floor Plans (CAD drawings)
- Faculty, Staff, & Lab Managers (grants, occupants, specialized research equipment)
 - Survey Resources:
 - SPM Website (<https://space.unt.edu>)
 - Survey link
 - User's Guide
 - **CIP Codes** (Classification of Instructional Programs)
 - **Space Use Codes** (e.g., office, lab, conference room, etc.)
 - **Function Codes** (e.g., instructional, research, student services, administrative, etc.)
 - Faculty Workload

Required Survey Data

- Department Correct?
 - “Yes” or “No”
- Space Use Correct?
 - Reference Space Use Codes List under the “Space Use Codes” tab in your binder or on our website at <https://space.unt.edu/file/61>
 - “Yes” or “No”
 - Coded as an office (310)...being used as an office?
- Room Dimensions Changed
 - “Yes” or “No”
- Capacity
 - Enter total capacity # for the space
 - If capacity is “0”, you **MUST** enter “0”

Higher Education Survey > 1.20 Higher Education Survey-Respondents

Run Checklist Report

Functional Category Codes to Rooms

○ Function Codes

- Reference Function Codes List under the “Function Codes” on our website at <https://space.unt.edu/file/67>
- How is the room used?
 - (e.g., instructional, administrative, research, auxiliary, etc.)
- May have up to **3** Function Codes per room but must total **100%**

○ CIP Codes (Classification of Instructional Program)

- Reference CIP Codes List under the “CIP Codes” on our website at <https://space.unt.edu/file/121>
- Which department/unit is the room assigned?
 - (Biology, Financial Aid, Food Services, etc.)
- Be as detailed as possible
 - (e.g., Biology, Biomedical, Biochemistry, Molecular Biology, etc.)
- May have up to **3** CIP Codes per room but must total **100%**

A screenshot of the FM:Interact 2019.3.89 web application. The main window is titled "Functional Category Codes to Rooms" and shows a "Details" section with the following fields: "Space User" (DEN Denton), "Function Code" (63 General Administration/Logistical Service), "CIP Code" (816500 Space Managem), "Research Type" (Select One), "Lab Type" (Select One), and "Percent" (100). There are "Save Changes" and "Cancel" buttons at the bottom. The background shows a sidebar with "Room Details" and "Space Information" tabs, and a list of occupants.A screenshot of the FM:Interact 2019.3.89 web application showing a table of "Functional Category Codes to Rooms". The table has columns for "Space User", "Function Code", "Description", "CIP Code", "Lab Type", and "Percent". A green arrow points to the "Percent" column, which contains the values 20, 60, and 20, with a "100%" label next to it. Below the table is a section for "Occupants" and "Pls to Rooms".

Space User	Function Code	Description	CIP Code	Lab Type	Percent
DEN	11	Instructional	816500		20
DEN	22	Individual or Project Research	816500	Wet	60
DEN	45	Academic Administration	816500		20

Employee ID	Research Type	Last Name	First Name	Department	Grant Percent	Account	Building Code	Room ID	DISP_NAME	Area
10468066	Organized	Benningfield	Cheryl	110130	50	GF40016	0111	104B	Cheryl Benningfield	129
11516113	Organized	Bolling	James	110130	50	GA00007	0111	104B	James Bolling	129

Required Survey Data Continued

PIs to Rooms

Employee ID Research Type Last Name

The search generated 0 results.

Principal Investigators (PIs) to Rooms (if applicable)

- Employee ID
- Department
- CIP Code
- Grant Award ID
- Research Type (Organized/Non-Organized)
- Grant Percent
- Lab Type (Dry/Wet)

Occupants

Last Name

The search generated 0 results.

Occupants

- EmplID, First Name, or Last Name
- Only Exception: Multiple student employees occupying a space with turnover each semester

Room Amenities

Description

The search generated 0 results.

Room Amenities

- Choose from a dropdown list if applicable to your research space

Specialized Equipment

Equipment Tag #

The search generated 0 results.

Specialized Equipment

- Research equipment purchased with grant funds
- Enter tag number and description

Defining Research Space

- Research Space defined by Space Type
 - 250 – Research/Non-Class Lab
 - 255 – Research/Non-Class Lab Service
- Research Space defined by Function Code
 - 21 – Institutes & Research Centers
 - 22 – Individual or Project Research
 - 31-34 – Public Service
 - 48 – Academic Personnel Development

Sponsored Projects Function Definitions

1. **Sponsored Instruction** and training means specific instructional, or training activity established by grant, contract, or cooperative agreement. For purposes of the cost principles, this activity may be considered a major function even though an institution's accounting treatment may include it in the instruction function.
2. **Sponsored Research** means all research and development activities that are sponsored by Federal and non-Federal agencies and organizations. This term includes activities involving the training of individuals in research techniques (commonly called research training) where such activities utilize the same facilities as other research and development activities and where such activities are not included.
3. **Sponsored Public Service** activities includes services provided by the university to the broader community examples include health service projects and community service programs

Determining Sponsored Project Function Code

Project Function Codes can be found in the **FMS:Workplace System** and on the **UNT website:**

UNT.edu > Research > Research Services > Reports and Statistics > (Log into system with UNT id) > Select FY2023 Expenditure Link

Click on download link to filter information

“Activity Column” = Sponsored Project Function:

- Research
- Instruction
- Public Service

Sponsored Project Function Codes vs Space & Planning Mgmt. Function Codes

GCA Function Codes	Space & Planning Mgmt. Function Code
Function 110 (Sponsored Instruction)	Function Code 48 Academic Personnel Development
Function 200 (Sponsored Research)	Function Code 22 Individual or Project Research
Function 310 (Sponsored Public Service)	Function Code 31-34 Public Service

Note: does not include Departmental research and other University funded research

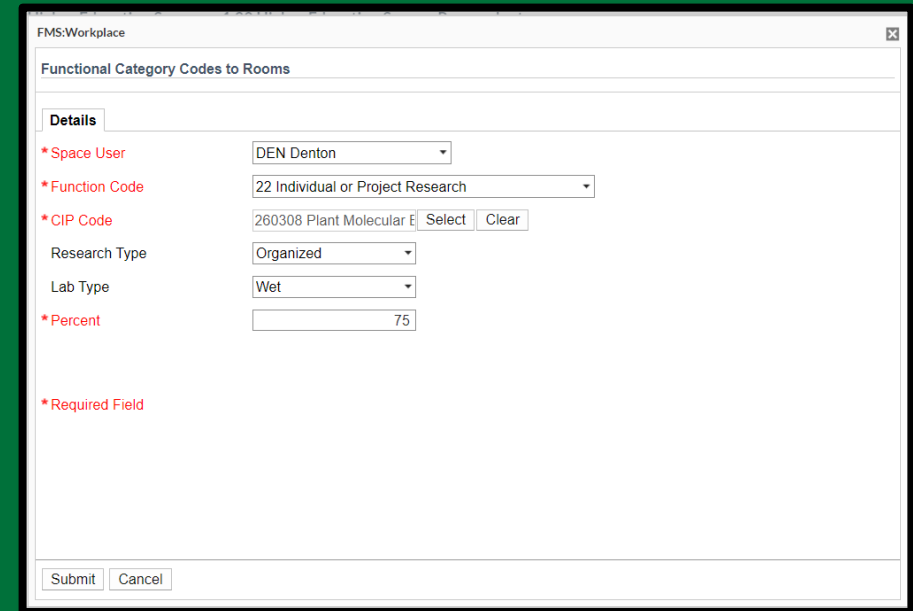

Space Survey and the F&A Proposal

The Federal Government requires the university to have a current and accurate space survey for developing the Facilities and Administrative (F&A) Cost Proposal.

- The Space data is one of the most important factors in determining the F&A rate.
- University facility costs are primarily allocated to the University functions, instruction, public service and research, based on how that University space is used or functionalized.
- Those are the percentages you are charged with determining.
- A 100% allocation to the research function for a lab space is highly unlikely.
- A Federal Cost team will visit UNT to negotiate the F&A agreement. During that visit, it will tour some of your departments to test the research percentages that you have included in your space survey.

Research Space

- Two Functional Code Categories – *See Appendix A, page 15 in the User's Guide on our website <https://space.unt.edu>*
 - **Organized Research (Funded)**
 - Grant-Funded Research **MUST** include:
 - Function Code
 - Research Type
 - Lab Type
 - Room Percent
 - PIs to Rooms
 - PIs to Rooms Percent
 - Survey Amenities
 - Specialized Equipment
 - **Non-Organized Research (Academic Personnel Development)**
 - Includes departmental research spaces

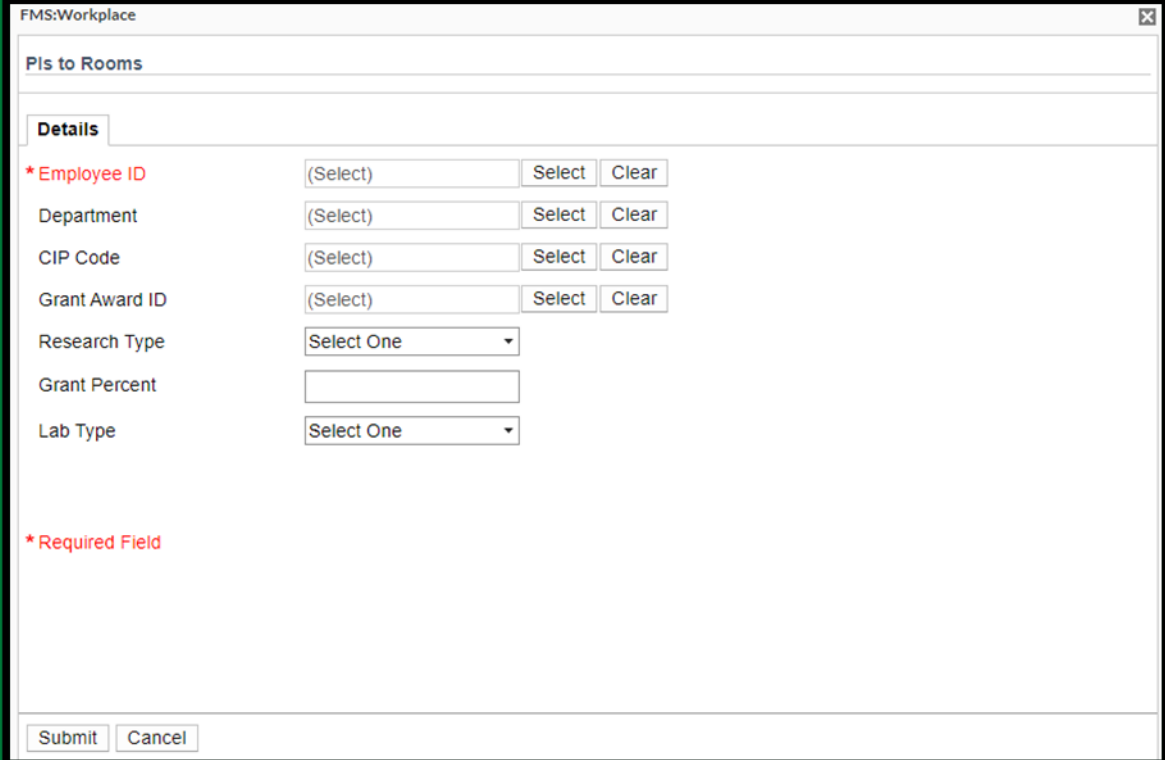

The screenshot shows a web form titled "FMS:Workplace" with a sub-header "Functional Category Codes to Rooms". The form is divided into a "Details" section. It contains several fields with red asterisks indicating they are required:

- * Space User: A dropdown menu with "DEN Denton" selected.
- * Function Code: A dropdown menu with "22 Individual or Project Research" selected.
- * CIP Code: A text input field containing "260308 Plant Molecular E", with "Select" and "Clear" buttons to its right.
- Research Type: A dropdown menu with "Organized" selected.
- Lab Type: A dropdown menu with "Wet" selected.
- * Percent: A text input field containing "75".

Below the form fields, there is a red asterisk and the text "* Required Field". At the bottom of the form, there are "Submit" and "Cancel" buttons.

Required Survey Data for Research Space

- All research space **MUST** be prorated by:
 - Grant/Project #
 - Principal Investigators (PIs)
 - Function & CIP Codes
- All research space **MUST** include specialized research equipment if applicable

The screenshot shows a web form titled "FMS:Workplace" with a sub-header "PIs to Rooms". The form is divided into a "Details" section. It contains several input fields: "Employee ID" (marked with a red asterisk as required), "Department", "CIP Code", and "Grant Award ID", each with a "(Select)" dropdown and "Select" and "Clear" buttons. "Research Type" and "Lab Type" are dropdown menus with "Select One" selected. "Grant Percent" is a text input field. A red asterisk and the text "* Required Field" are located below the input fields. At the bottom of the form are "Submit" and "Cancel" buttons.

Research Space by Function

Is the space *really* 100%?

Labs at 100% = **red flag**

- Function should be determined by aggregate activity for the fiscal year
- Estimate percentages based on users, funding and activities

Research Space by Function Continued

Questions to Ask:

- Who are the users of the space? Faculty, students, etc.?
- Is there funding associated with the user's activities in the space?
- What are the students doing? Checking email, preparing for class, grading papers? These are instructional activities (Function 11) which would mean the space is **NOT** 100% research.
- Are the Faculty working towards or waiting for a grant award? This is departmental research (Function 48).

Student space – Graduate bullpens, offices, etc.

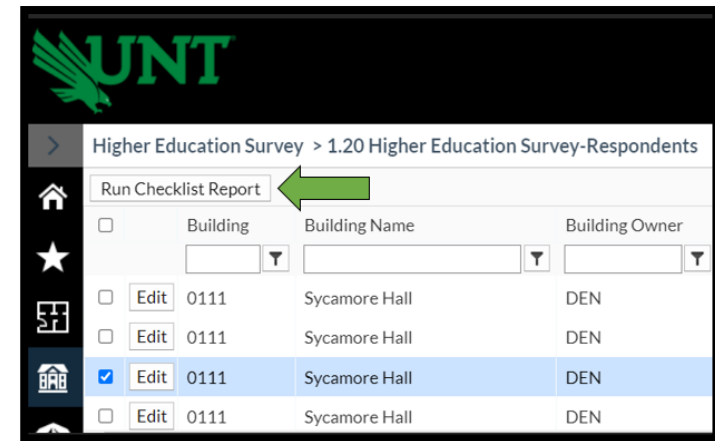

- Are these students working on research, homework etc? Prorate the function accordingly.

Research Service space

- Used only by funded researchers? Shared with others who may not have funding?

Survey Checklist Report

FM:Interact 2019.3.89

Survey Type: ANNUAL-STATE Department(s): 110130 - Space Mgmt & Planning

Problem(s): Incorrect % for Functional Codes, In

Research Space Examples

□ Example 1 – Faculty Office – Funded Grant

Faculty office with a 40/40/20 load and a funded grant

Function Code	Name	Percent	PI Required?	Grant # Required?
11	Instructional	40%	No	No
22	Organized Research	40%	Yes	Yes
46	Academic Administration (service)	20%	No	No

□ Example 2 – Faculty Office – No Funded Grant

Faculty office with a 60% teaching, 30% research, and 10% service load

Function Code	Name	Percent	PI Required?	Grant # Required?
11	Instructional	60%	No	No
48	Departmental Research	30%	No	No
46	Academic Administration (service)	10%	No	No

Research Space Examples Continued

❑ Example 3 – Faculty Office – Adjunct/Lecturer

Faculty office for an Adjunct or Lecturer with a 100% teaching load

Function Code	Name	Percent	PI Required?	Grant # Required?
11	Instructional	100%	No	No

❑ Example 4 – Research Lab – Space Use 250

Lab used 20% of the time for graduate students working on instructional objectives and 80% of the time on funded research

Function Code	Name	Percent	PI Required?	Grant # Required?
11	Instructional	20%	No	No
22	Organized Research	80%	Yes	Yes

Research Space Examples Continued

□ Example 5 – Research Institute – Space Use varies

- Room used 75% of the time for research on a funded grant and 25% of the time for administrative purposes.

Function Code	Name	Percent	PI Required?	Grant # Required?
21	Institutes and Research Centers	75%	Yes	Yes
46	Academic Administration	25%	No	No

Research Space Calculation

- ❑ Calculation of total Sq. Ft. that your research expenditures applies to is determined by the percentage of total space used specifically for research. The calculated total is then applied to the percentage of use per PI and Grant to arrive at your total expenditures per sq. ft.
- ❑ **EXAMPLE – Research lab used 60% for funded research with 2 PI's and 4 grants**
 - ❑ If the lab is 1,000 total sq. ft. then 60% of that will be applied toward the research total equaling 600 sq. ft. of research space ($1,000 \times .6 = 600$).
 - ❑ The total would then be prorated by PI percent so if each uses it 50% of the time it is actually used for research, it would be 300 sq. ft. per PI ($600 \times .5 = 300$).
 - ❑ That total would be prorated by percentage of time each grant is worked on by that PI, so if each PI worked on their grants 50% of the time they used the lab for research, then 150 sq. ft. would be the total sq. ft. the expenditures for each grant would apply to. ($300 \times .5 = 150$).

Demonstration
